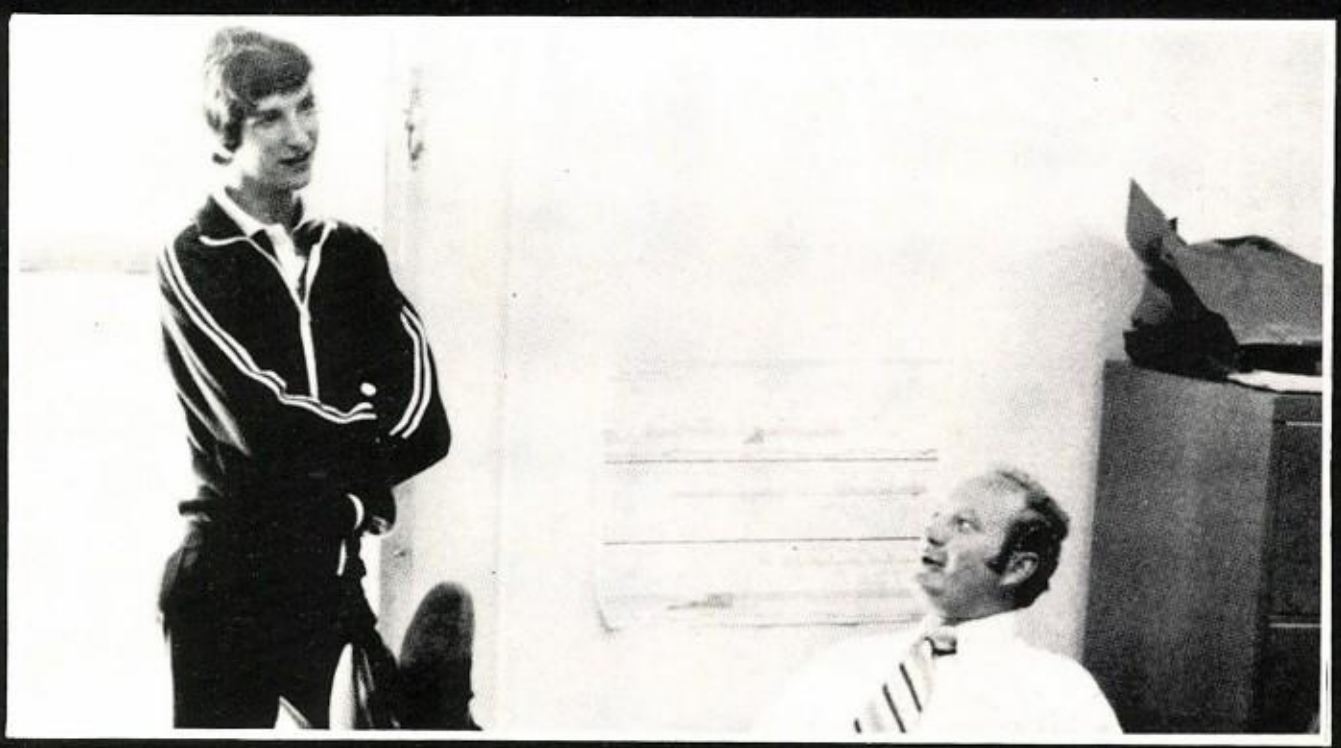
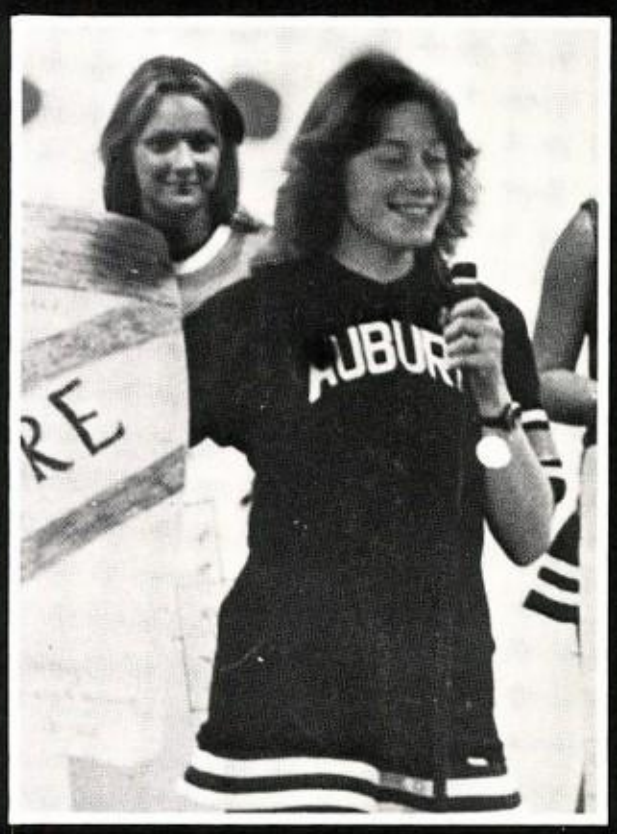
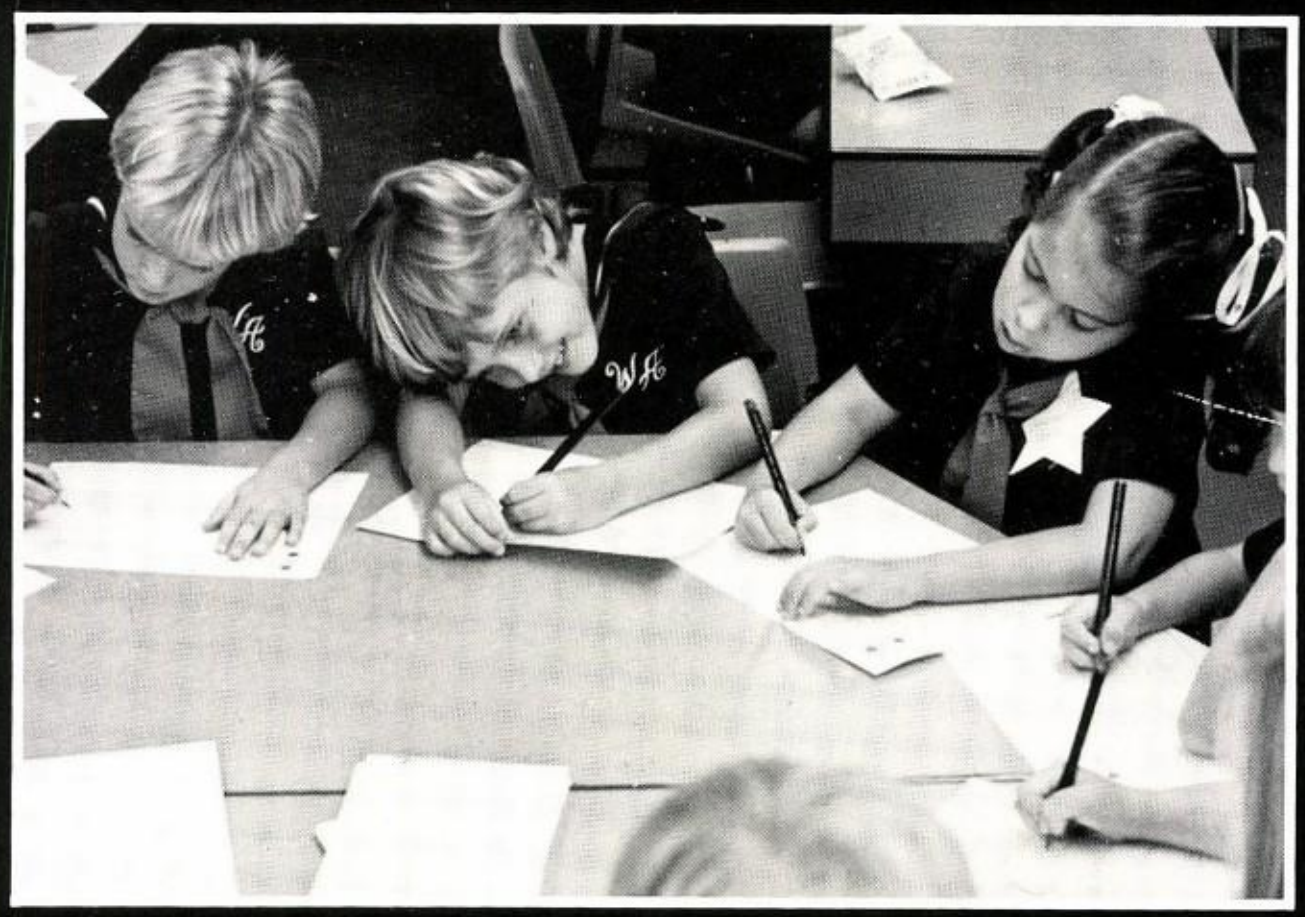
"Star light, star bright" and a little child's wishes come true. We soon learn a star can't give us our dreams but a star does shed light below. Navigators, pilots, and sailors from the beginning of time have looked to the heavens to determine their location and the direction to take. Stars fill our lives. No, not in the form of an interstellar cloud of gas and dust but in the form of people who laugh with us, cry with us, and guide us along.

Wishes Come True



Encounter With Stars





Our first encounter with stars comes from our families. Then friends enter our lives. Teachers, coaches, and administrators all have a way of shining in. We receive light from many different sources and much of that light we reflect.

In many of our lives there is another star shining. This star was promised to the Israelites long ago. God said, "A star shall come forth from Jacob." This miracle came to pass in an obscure stable in the town of Bethlehem. The star came to proclaim that Light had been born. Jesus said, "I am the light of the world; he who follows Me shall not walk in the darkness, but shall have the light of life."

As no two stars are alike, no two of us are alike. We're different in the way we dress, the way we look, and even what we eat for lunch. But as different stars are able to coexist in the galaxy, we are able to live with each other at Westminster Academy.

1978 is our turn to star! Some will choose to do this through academics, some through clubs, some through athletics, and some will seem to snuff out their light by a show of apathy. The choice is ours. SO . . . STAR!

So . . . Star!

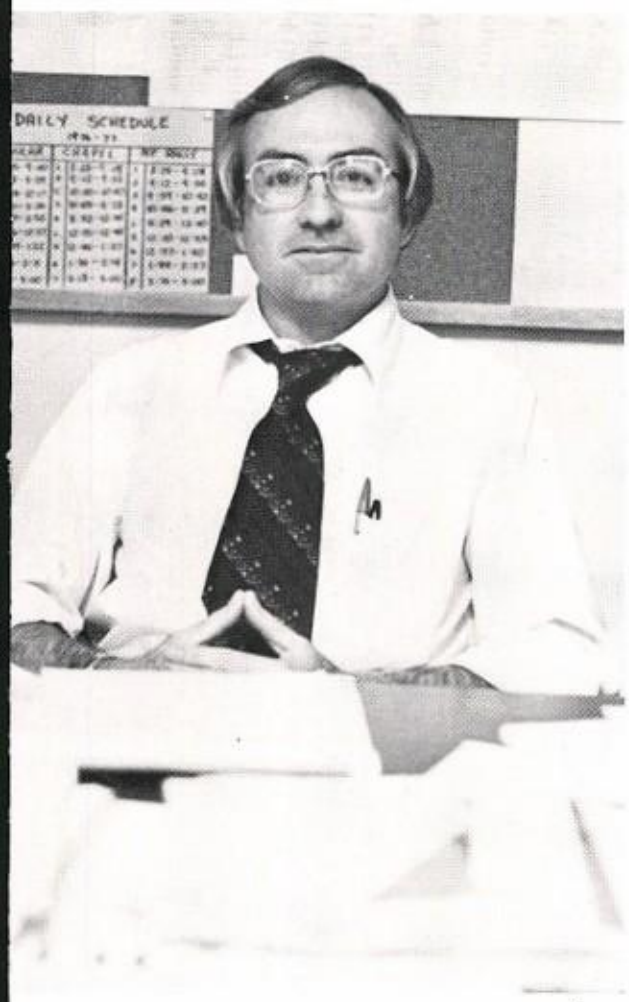
Administration



4.

Dr. Wackes, Dr. Bergman, Mrs. Boyett and Mr. Metzger made up the administration of Westminster Academy.

Dr. Wackes has been Headmaster for five years. As Headmaster, Dr. Wackes carried out all policies decided by the Board of Directors. He also wrote the budget and oversaw all facets of the school.

Dr. Wackes' open manner and sincere interest in the student made him popular with student and teacher alike.

The **Scrible,** Text Ray, and the Lunch Box were just a few of Dr. Bergman's projects.

He also enjoyed doing something that came naturally to him, clowning around with the Westminster Academy Clown Klub. Fans enjoyed their performances at football games.

Mr. Metzger was the Director of Guidance and had a really busy year. For the student who had questions about almost anything, Mr. Metzger was the man to see. He was especially helpful to Juniors and Seniors who needed information on colleges and careers.

Mrs. Boyett was the Director of Instruction. If you had ever wondered who had the hard job of scheduling all the classes, she was the one. Mrs. Boyett also oversaw curriculum and taught math analysis. She has been at Westminster Academy for four years and Director of Instruction three.

5.

Board Of Directors And Director Of Development

The policy making body of Westminster Academy was the Board of Directors. These policies were carried out by Dr. Wackes.

Meeting the first week of every month the Board of Directors had many responsibilities such as reviewing and approving the budget, interviewing prospective teachers, and approving building programs.

Mr. Brown was Director of Development for Westminster Academy. Some of his plans for development included a one thousand seat gymnasium and the five new rooms we have enjoyed. Material donation solicited by Mr. Brown included a Nikon camera and a 17' boat.

Imagine Not Having A Staff

Imagine not having a staff. Well I did.

Phones would be left ringing, teachers wouldn't know who was absent, accounts would be a complete mess, the school wouldn't be able to add more students without someone to register them. Dr. Wackes, Dr. Bergman, Mrs. Boyett and Mr. Metzger would be lost trying to find papers and keeping appointments straight. WHAT A MESS!

Fortunately here at Westminster Academy, there is no such problem. The school has a staff of well qualified and competent people who keep everything running smoothly.

They Keep Things Running

Westminster Academy has been busier than ever before. The school is very fortunate to have Fred, Lonnie and Bill as janitors. They kept things clean and fixed things to help the school run smoothly.

A large portion of the students enjoyed the comfort and convenience of the buses. Westminster appreciated the effort put forth by bus drivers to see that students arrived on time and safely at athletic games and field trips. It takes a lot of work and Westminster thanks them for it.

The janitors and bus drivers really keep things running.

Language Arts
Social Studies And Bible

The English courses taught the student grammar and how to apply it to his writing. Different types of literature were studied. Some works that were studied were acted out as plays. Creative writing was offered as an elective. Working on the **Pawprint** and the **Optime** allowed the student to use his literary skills.

Interested students had a choice between three foreign languages; French Spanish and Latin. French and Spanish can be taken for four years while Latin is only offered two years. These courses provided a basic understanding of the skills in writing, reading, and speaking the language. The student also acquired an understanding of the foreign country's history, culture and way of life.

There was an abundant number of varied courses offered by the Social Studies Department. Some courses taught geography and how people live in other countries. There were courses that dealt with our history and our present day problems. Psychology and Sociology were also offered.

In Bible the student studied and learned about various Old and New Testament books. These books took on a deeper meaning as the student related them to his life. There were also personal growth courses which catered to the questions and problems in a student's life. Biblical solutions were sought for these problems. Electives in Evangelism, parenthood and family life completed a well-rounded program.

Science, Math, Music and Physical Education

6.

In Science, the student learned about and understood the laws of nature and how they work. The student also learned how his body works, and about plant and animal life. Chemistry, Biology II and Physics were the electives in science.

The Math Department offered many courses for the interested student. They included General Math, Consumer Math, Algebra IA, IB, and II, Geometry and College Review. For the student who really wanted to dig, advanced courses in Algebra II and Math Analysis were offered.

Physical Education not only provided an excellent way for students to keep healthy and fit but developed good sportsmanship. When playing on a team, it's important to be a good sport! Many students discovered special skills, talents and ability for certain sports that they will continue to use after leaving high school.

The Music Department had many courses for the interested music enthusiast. They are Music Appreciation, Chorus 7 and 8, Beginning and Advanced Band and Senior High Chorus. Advanced Band and the choruses performed several times a year at school activities, in the community and in Winter and Spring concerts.

A Galaxy Of Subjects

The Business Department offered a large variety of courses. For those who just wanted to learn to type, personal typing was offered. For the student interested in more advance courses there were advance typing courses, accounting, shorthand, and business law courses.

Mrs. Coningsby provided the elementary student with an excellent art program and hours of fun. It was hard to keep the room clean while working on such neat projects such as drawing, painting, and making pottery.

The Learning Resource Center was a first for the elementary. As director of the center Mrs. Martin worked with the teacher in finding material to help the student. Mrs. Martin's room combined kits, learning games and books to help with specific problems. She also worked with and held clinics for parents in the VIP program. Parents played a vital role helping in the classroom. The School reaped many benefits from this new center.

As Librarian, Mrs. Manely had a very busy schedule this year. Ordering and processing books took a great deal of time. She also worked with teachers in gathering audio visual material and books for the class room. Mrs. Manely, as all the students know, helped them find almost any book. Mrs. Manely was not left alone with this job; Mrs. Walls, the new assistant helped.

The Radio Broadcasting class was the newest addition to Westminster Academy's classes. Students were taught the basics of radio broadcasting, rules, and regulations set forth by the F.C.C. They also learned how to make daily program logs, proper breathing techniques, and how to use broadcasting equipment. The class also made their own program "Christmas in the Air." Three of the students had their own shows. Kevin Kalbach and Rick Bieber's show was "Jazz for You." Ron Brown along with Brian Vanderkode's show was "The Main Element."

The Home Economics Department provided courses that covered a field of subjects. Cooking nutritious appetizing meals was a practical skill offered to the student. Child care, sewing, and interior design added to make a complete program.

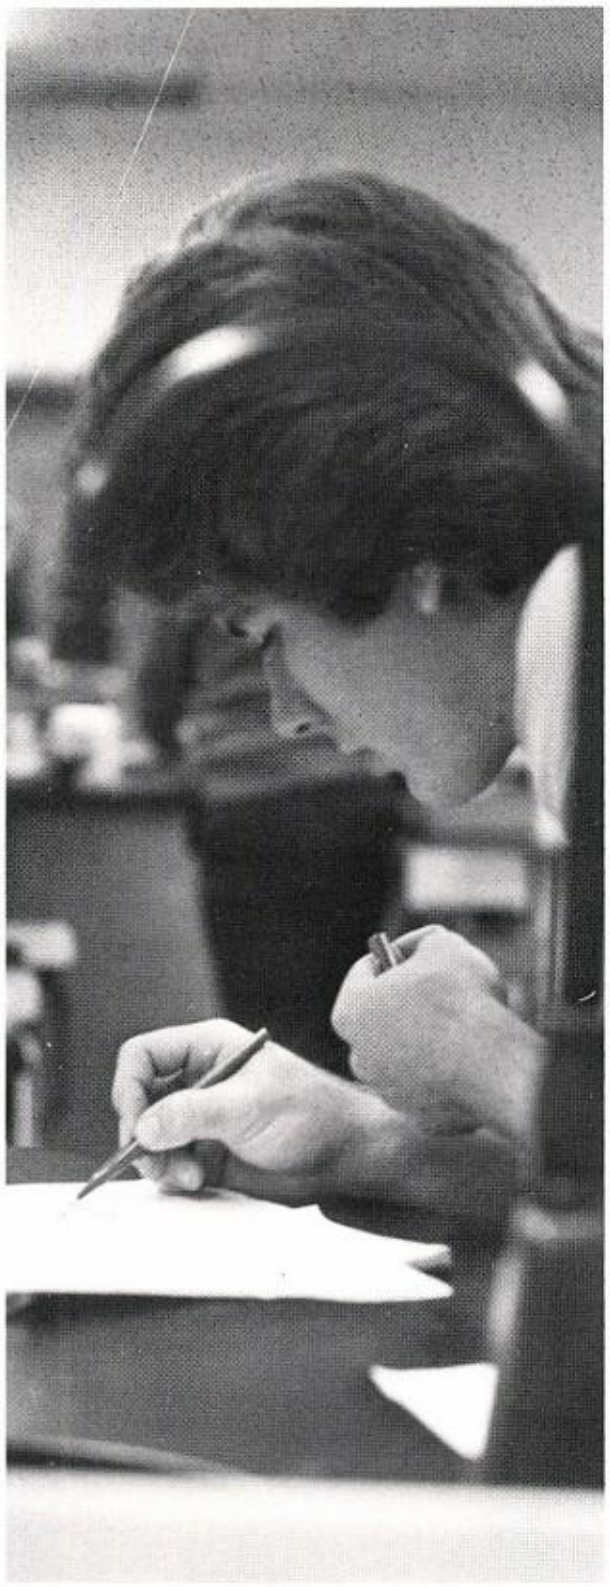
Memories Will Live On



Final days of high school drew closer and the Seniors found themselves pondering questions about their future. Which schools should they attend? Which careers should they pursue? In the midst of Senior fun it was hard to realize that high school days would soon reach their end. Graduation approached with mixed emotions; excitement about facing a new challenge and apprehension about what lies ahead. Memories of high school days at Westminster will live on in the hearts of the Seniors of 1978 forever.

"The Way We Were"

Memories light the corners of my mind.
Misty, water color memories of the way we were Scattered pictures of the smiles we left behind
Smiles we gave to one another for the way we were
Can it be that it was all so simple then?
Or has time rewritten every line?
If we had the chance to do it all again
Tell me would we? Could we?
Memories may be beautiful and yet what's too painful to remember We simply choose to forget
So it's the laughter we will remember whenever we remember The way we were

Juniors

Excitement was the dominant feature of the Juniors' year. They started it off with a bang by winning not only the float, skit, and spirit competition, but also the overall award during Homecoming. The Spirit Stick belonged to the Juniors on many occasions. The excitement continued with the arrival of class rings. They all had the pleasure of choosing that special someone to turn it for the 79th time. College Night was exciting as they began the challenging task of picking out a college for the quickly approaching future. The Juniors put a great deal of hard work into putting together a successful Junior-Senior Banquet. Everyone had a most enjoyable evening. All in all it was a busy and enjoyable year packed with memories. Next year promises to be even better.

1. Bob is so embarrassed. 2. Hey, get a picture of me Dwight! 3. Calm down now Alan. 4. Wake up Rip. 5. Working hard Jane? 6. Your average intelligent Junior.

Sophomores

The Sophomores had a great year. They started off with homecoming activities and elected Jennifer Kennedy and Kelly Murphy as the Sophomore Court. They had many fund raising activities including candy apple sales and car washes. They enjoyed many field trips including the Planetarium and have started planning for a future trip to Washington D.C. They became a closer class and made new friends by participating in "groups" every Wednesday during Bible. The Sophomores are really starting to get it together.

1. Greg would you quit turning on the gas. 2. Amy is such a serious student. 3. Hey Priscilla are we suppose to eat this stuff. 4. Aren't we happy today Owen? 5. Don't fall asleep now Steve. 6. Kelly, I just can't reach the ceiling.

Freshmen

This year's Freshman class was quite busy and loved every minute of it. They placed second in the float competition at Homecoming. Sally Smith and Lori Minear were the Freshman representatives on the Homecoming Court. In over-all Homecoming competition, they placed third behind the Juniors and the Seniors. During the year, they raised money and went to Disney World in November. With three more years to go, the '78 Freshmen were sure off to a good start.

1. The Freshmen are so studious. 2. Boy, Kim is full of hot air. 3. Daryl, you have such cute dimples. 4. David, I am not going to give you an answer. 5. How am I going to open this lock?

Eighth Grade

Parties, field trips, and get togethers were just some of the things eighth graders did. But believe it or not, they were able to get some academic work in between all the activities. To each 8th grader, the highlight of the entire year was not being on the bottom of the totem pole like they were last year. No, this year it was the 7th graders!

7th Grade

Crowded lockers, more homework, and mad rushes to next classes were just a few things seventh graders experienced upstairs. This year they got to pick their own classes. They became more involved in sports such as football, basketball, and also got involved in Student Council. No recesses this year, but new uniforms and more freedom made up for it and then some.

1. Jimmy, we are not interested in your test. 2. Don't try to act like you're studying seriously, Sherrie. 3. I'll throw this pencil at you Dwight if you take the picture. 4. Mark, would you stop pushing my desk.

Sixth Grade

Sixth grade was anything but boring in Mr. Chubb's class. Many field trips were taken; to Viscaya, Spanish River Park, and Planet Ocean. Planet Ocean was particularly interesting to the class because of their numerous science experiments and movies all year. By the end of the year, each student loved to write creatively. It was definitely a year of learning in Room 110.

Sixth Grade

At times the Sixth Graders looked like foreigners. Early in the year they were Greeks, then Romans. In the Spring they each represented a country of modern Europe, dressing in the national costume of that country.
During the Christmas season Scrooge and the "Spirits" were the main theme of our activities.
Tom Sawyer, Huckleberry Finn and many celebrities from past and present came alive as biographies and classics were acted out.
The mural — time — line gave them an opportunity to display their artistic abilities.
They have learned to live with each other and develop meaningful friendships. It has been a good year.

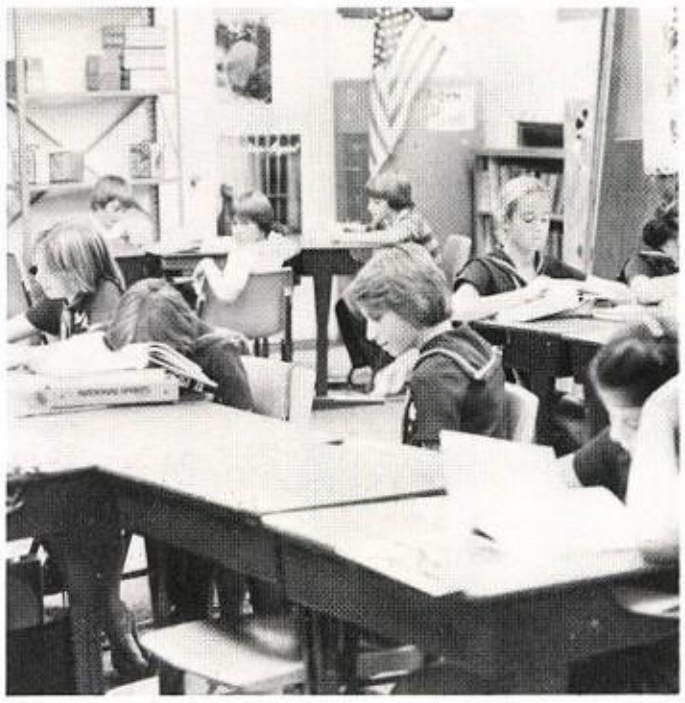
Sixth Grade



September came and 27 soon to be friends entered Room 111.
It was a fun year for all.
Xtra special activities were planned by Miss Neal.
Talking meant seconds on the board.
Happy were the times spent in Magic Circle.

Games were played whenever possible and kickball was the favorite.
Razzle dazzle of Circus Week found everyone a clown.
Around and around on many field trips: Viscaya, Pine Jog, and Snyder Park.
Dumb they came in, smart they went out.
Everyone agreed 1978 was the best!

Mrs. Volpitto's class has participated in many things this year. One of them was the annual Colonial Day held on Oct. 31. The students enjoyed each others costumes and the reports each of them gave. Besides this, they learned many new things in art classes. They made their own clay pots which were fired and used for Christmas presents. Their teacher left them in March to add an addition to her family and they enjoyed a new teacher for two months.

They learned many different things in all of their classes. It has become important to them to use dictionaries and reference books. It was amazing to them how they as human beings are created beautifully — how everything works together in such a marvelous way! Many of them have grown stronger in their Christian walk in life, particularly by studying the Bible. All in all it was a good year.

Mrs. McKay's fourth grade had an exciting and eventful year. They learned the real meaning of Thanksgiving by holding a big Thanksgiving dinner in their classroom and shared with each other the many things they were thankful for. Of course, they had fun participating in the annual Christmas program. At the beginning of the new year, they enjoyed a field trip to Planet Ocean. This trip was taken to highlight our study of "Life in the Ocean." Finally, they studied Florida's natural resources, food and vegetables in Florida History culminated in a big seafood dinner from Red Lobster. Fourth graders certainly had a very enjoyable and meaningful year full of new and exciting learning experiences.

They had a very full year in Mrs. Depue's third grade. Their Science and Social Studies program was full of experiments and hands-on-activities such as erupting volcanoes, lunar rocks, and stuffed dinosaurs. They even learned some forms of needlework such as sewing, needlepoint, and hooking a class pillow. At Thanksgiving time they dressed up as Pilgrims and Indians and enjoyed sharing "Thankful Stew" which they made in class. It was fun cooking once a month! Their trip to the Broward County Planetarium, King Cromarti House and Discovery Center were among experiences they will not soon forget.

The Third Graders had a busy year participating in our Fall Festival Play, Thanksgiving and Christmas activities, plus celebration of the Presidents' Birthdays, Valentines Day and Easter.

Field trips, art projects, and special activities enriched their Social Studies and Science units. Language Arts time included plays, puppet shows, skits and other reading activities. Math time in third grade included learning multiplication and division facts. Bible centered around learning about the land in which Jesus lived — Israel. It was a very active year.

To supplement their animal unit, the boys and girls made paper mache animals. These animals, plus the real ones the children brought in for Zoo Day, made the animal unit an exciting time.

The field trip to Lion Country Safari gave each child a first-hand look at the wonders of God's creation. This year was a terrific year!

Students in Pre-Kindergarten enjoyed making new friends. Games, art activities and various different kinds of painting helped develop motor, auditory, visual, color, shape and language skills. The class learned how loud a fire engine siren sounded up close. A tour of McDonald's and picking tomatoes proved to be fun and interesting.

Kindergarteners enjoyed an exciting year growing and learning together. They began to understand God's word as it applied to their lives through role-playing, prayer and special share times with one another.

Visiting planet Ocean in Miami and their train ride to West Palm Beach, as well as their zoo and Planetarium trip provided learning experiences they will long remember.

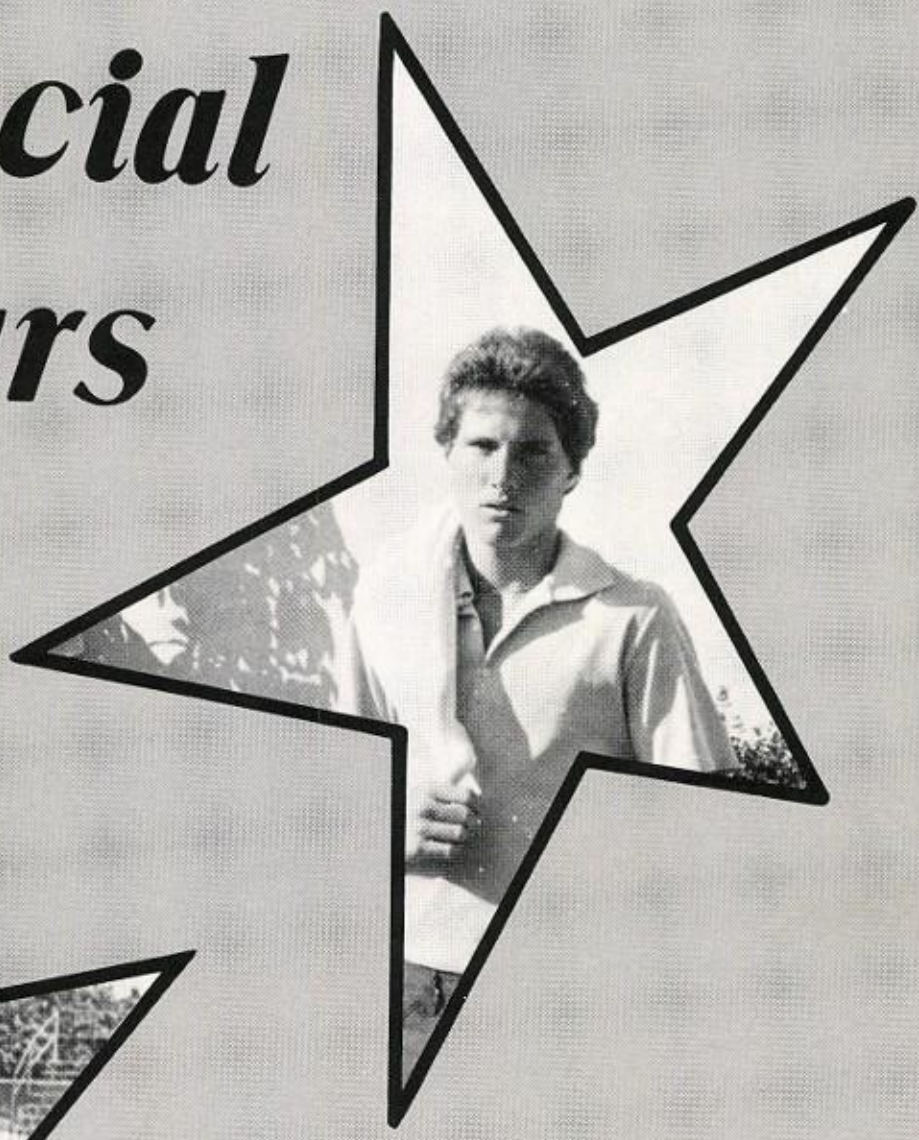
Special Stars



Winter Wonderland Week started off with hall decorations and an interesting day — tourist day. Many came with cameras strung around their necks and zinc oxide on their noses. On the night of the game everyone was fired up. Saturday night was filled with excitement. W .A. won the game and the 1978 Winterqueen was crowned. Here's a few words Sharon Musto said about the evening, "I was so surprised. I really hadn't expected it. From the time they announced my name until the buzzer rang at the end of the game, I was in a daze. It seemed like a dream."

Membership for the National Honor Society is based upon scholarship, service, leadership and character. The 1978 Westminster Chapter did a variety of things, ranging from selling lollipops to writing the Westminster Book of Records. Giving blood to various blood banks was another activity the chapter participated in. The Student Council and the Honor Society combined their efforts to put on the Honors Banquet. In the second year of the National Honor Society at Westminster, they became more active in their school and in their community.

Help

Grading papers, leading a class review, running errands, all these things and more are routine for teachers aides. Each week the student must fill out a report for that week's work. Every other week the teacher makes out another one. These slips evaluate the student's work and are used in grading the aide.

Communications Is The Key

Many students distinguished themselves by becoming involved in community communications services. Susan Meigs led the deaf on Sunday mornings at Coral Ridge Church. Ronnie Brown and Brian VanderKodde gave the younger generation an exciting new opportunity to listen to Christian rock every Saturday from 4:00 to 6:00. The Main Element presented Christ through music that kids can relate to. Following this came Rick Beiber and Kevin Kalbach with "Jazz for You." They organized and ran this program for those in the community who enjoy jazz. Another new community organization was WAFG's sports broadcasting. The team was made up of Mr. Watson, Coach Key, Tracy Barnett and Rick Beiber. They went to many of the Broward County schools games and broadcast the action live! Because of these people many in the community learned more about Westminster and the people here.

Close To Perfection

ME-MAY-MA-MO-MOO, And so forth. A typical day in Sr. High Chorus began with a warm-up exercise and then they went through their music. Mrs. Vanderslice made sure they worked hard to achieve a close to perfection sound.

The chorus planned to go to Atlanta for a week and to sing at several churches. The Sr. High held several bake sales and other fund raising projects.

This year the Sr. High chorus added a nonuette to their special groups. Along with the ensemble they sang at several places during the year.

The Junior High Chorus enjoyed their time in class because they made an early decision to both enjoy and learn the music in chorus. Mrs. Vanderslice did a wonderful job with this group. Their work and her help paid off in the end. The chorus sang at the Christmas and Spring concerts.

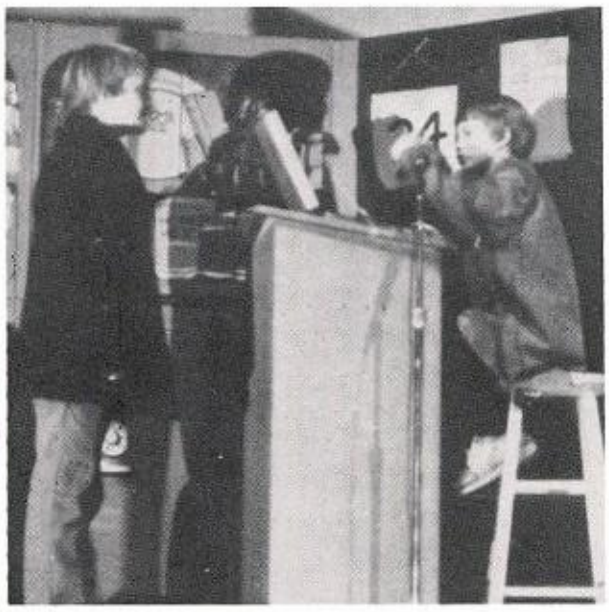
Excelling In Music



4.

5.

The elementary vocal music program was under the direction of Mrs. Loomis (K-5) and Mrs. Vanderslice. The two annual events in which the choir sang were the Christmas and Spring programs. At Christmas the 6th grade re-enacted Charles Dickens' "A Christmas Carol." A musical was presented in the spring by the 5th grade. The choice is given in 5th grade whether to join band or play recorders. The opportunity is given for all students to excell in this field.

Many long, hard hours of work and dedication were put in for the organization of this one event. Work days, bake sales, car washes, and organizing the entertainment climaxed in the Jr. Sr. Banquet. The entertainment — the Ice Show and the band "Aaron." Everyone looked great! And everyone felt the evening was a huge success!

Even the yearbook staff can experience a new encounter. The Optime staff experienced for the first time two editors instead of one. As the old saying goes two heads are better than one. Or are they? The seventh edition of our school's yearbook was put together by the collective efforts of a number of people.

We would like to thank you, the student body, for the big part you have played in this book. We also extend our thanks to Miss Barbara LeGost for her artistic contribution and to Jeannie Norton for her extra help. We deeply appreciate Kyle Duncan, our Taylor Publishing Co. representative, for his patience and knowledge. A special thank you goes to each member of the Optime staff for their hard work and friendship. Finally our sincerest gratitude goes to Miss Carol Neal, our advisor, who has stayed with us through hard times and fun times, and without her this book would be impossible.

Lunch Box

The "Lunch Box" program was initiated with several goals in mind: giving "our kids" a luncheon choice and perhaps, if successful, raising funds to support the PTF projects. After three months of successful operation, the program was expanded to include several popular sandwiches and desserts from McDonalds. National attention has been focused on serving children food for a luncheon program that meets their "liking" and Westminster strived this year to build that type of program.

Accepted!

1

Westminster Academy was officially accredited on December 13, 1977, at the Annual Meeting in New Orleans of the Southern Association of Colleges and Schools. Dr. Wackes was there to accept the accreditation.

A school seeks accreditation voluntarily. Attaining accreditation status certifies that a school has met the policies and standards established by the Commissions of the Association.

A school cannot be accredited unless they engage in rigorous self-evaluation and a continuing school improvement program. The self-study is a thorough, demanding and yet a valuable procedure which can improve any school. Evidence for the self-study procedure was gathered by testing, observations, self-analysis group discussion, opinion polls, and judgements from the visiting team.

The final evaluation reports of both faculties were completed two years after they began. These reports were investigated by the twelve-member committee that visited W.A. in April of 1977. Based on their review, the team recommended Westminster without condition to be accepted as a member of the Southern Association.

Pawprint Covers "The Scoop"

Pawprint began its second year of publication with the addition of several new staff members. Contributing "guest writers" from throughout the student body also submitted material to be printed. The Pawprint covered club and class news, featured individual students, reported sports and special events, and offered original art work for its readers to enjoy. Each issue was built around a central theme, enabling the paper to cover outside topics that effect a student's life as much as do his/her school activities.

Pawprint also became a member of the Florida Scholastic Press Association, and representatives attended the annual convention in Daytona Beach. Several staff members were named to the Quill and Scroll, an honorary organization for high school journalists.

Those connected with the paper wish to thank all the people throughout the school community who, through their cooperation, helped make the paper possible. They also wish to thank Miss Thompson, Faculty Adviser, for her diligence and guidance.

Ted Place led the entire Junior and Senior High School in a Spiritual Emphasis Week. Many students were brought closer to the Lord because of this week.

This is your life! You get involved! Everyone joined in the spirit this year. There were pep rallys (where everyone made fools of themselves) but it was fun! There were special spirit days such as tourist day.

Students also enjoyed a square dance upstairs. It was a real whompin', stompin' event.

Both the students and the parents munched out at the PTF picnic after football. So W.A. — This **is** your life!

Band Adds New Sounds

In addition to adding to the spirit and excitement of the football and basketball games this year, the band has been very active performing in concerts and Band festivals with other Christian schools in the South Florida area. The band festivals have been sponsored by the South Florida Christian Music Educators Association.

As a result of a very successful fund raising drive the band was able to purchase some new instruments. A lot of help to Mr. Kunselman this year was the Band Parents Organization.

Creating Spirit

Crazy shoes, hats, socks, and even people were seen often at Westminster Academy. Creating spirit for each game was a task executed very creatively by the cheerleading squads. The class with the most percentage of their class participating claimed the spirit stick for the week. The senior class and cheerleaders showed their spirit by dressing up like the opposing team. Throughout the year students went on many interesting and exciting field trips. Classes were also out to raise money for various functions.

Hard Working Student Council

5.

Student Council planned and worked hard this past year. They planned and printed a full calendar of events for the school, both socially and spiritually. Homecoming, sponsored by the Student Council, was a real success. They also sponsored Winter Queen, along with parties, square dances and skating, just to mention a few. They had a service committee with a Christian outreach for the needy. Special chapels and Bible studies were run by the Student Council. Their goal was to see the school grow together as a Christian body closer to God.

Their First Year!

1978 was the first year for a Junior High Student Council. They drew up their own constitution and they usually met on Tuesdays at lunch. Their goal was to support the Junior High activities, sports events, and to raise the student morale. This was not always easy, but they did a good job for their first year. They were one of the few groups to end up with a surplus even after field day.

A Governing Body

Leadership was shown this year by those that worked on the Elementary Student Council. Elected officers plus homeroom representatives met twice a month to plan activities. Money was raised to sponsor a skating party. Dress-up days planned by the student council were also appreciated by the elementary students. For many, this was the first taste of work together as a governing body. Mr. Simon DeVries sponsored the group.

Send In The Clowns

WACK! is not just some sound you hear when one clown whacks another. It stands for Westminster Academy Clown Klub. It was formed two years ago for secondary guys and girls who clown around with a purpose in mind. That purpose was to bring a little joy to lives which sometimes have very little due to, perhaps old age or illness. To be a WACK is to want to work hard — for fun. It is no easy task to spend half an hour meticulously putting on makeup and another half an hour trying to get it all off. And between that an hour or two of strenuous physical activity. (You even have to give up your favorite night of T.V.)

The Klub gets requests from other organizations to appear, besides doing their own visits to Holy Cross Hospital and senior citizen homes. The Klub participated in the Beaux Arts Promenade and the benefit show in Davie for the Friends of the Chord. As the song goes, "God Loves a Laughing Man" the WACK members are going to spread God's love widely.

Homecoming: Via Star Wars

What's that? A robot that talks? This was just one of the many things seen during Homecoming Week '77. Monday morning the halls of Westminster Academy were turned ahead in time. It was possible for one to think he had stepped into another galaxy by mistake. Traveling from class to class was an adventure one embarked on each day. At 3:00 descending the stairs was like coming down to earth. The Theme from Star Wars was a reoccuring sound always within earshot.

Lions Have The Force

6.

Many late nights spent on hallways and floats produced exhausted but excited students, as well as teachers. All the efforts made were evident in the final product contributed by each class — getting one step closer to winning the over-all spirit for the entire week. Such events as weight competition, stomp 'em day, and carnation sales highlighted the week. To generate spirit for the game on the following day, spirit night was held. Many students tried their hand at acting as each class presented a skit to dramatize the Lion's force over the Knights.

Miss Gaye Smith is crowned 1977 Homecoming Queen and the Class of '79 claims possession of the megaphone for the second year in a row. It was a long, hard week. Junior High Football — Opening Season

3.

Long hours of practice and many sleepless nights became familiar to 7th and 8th grade boys as the first football season for Junior High got under way. This team is an important first step in the building process for a successful varsity football program. Five games were scheduled and the team showed their colors by winning 2 and losing 3. The team was coached by Mr. Steenhoek (Head Coach) and assisted by Mr. Fagley. Captains were Billy Carey, Daryl Doran, and Andy Irvine. Twenty-nine boys stayed with the team for the whole season and the outlook is bright for next year.

The boys and girls cross country teams have stayed where they have been in the past years — on top! The boys went all the way to state. The Westminster Cross Country Team has been very known in the area, with the help of a few state championships and a number of articles in the paper, documenting the success, teamwork, and spiritual togetherness of the teams. Typical lack of competition encountered by the boys' cross country team is seen by Ron, Mark and Paul often running side by side. Unfortunately, the girls were eliminated at the regional championships.

W. A. Soccer Adds J.V. Team

Soccer is one of the fastest growing sports in America. Our team under the leadership of Coach Jim Watson and Captain Robert Morris was an excellent team for its second year of play. Being the only single A Varsity soccer team in the area, they had to face 2A, 3A, and 4A varsity teams and did very well. The J.V. team coached by William Lovelady is new this year. Because of an excellent turnout of boys, the group was divided and a J.V. team was formed.

Westminster's Basketball Team is the beginning of a championship team. The team coached by Leroy Schwab proved one of the best yet. The captains of the team were Tom Cash and Richard Roccanti. With leadership and teamwork, they had no problem keeping the gym full throughout the season.

Teams Create Excitement For Basketball Fans

With a growing school, comes not only a greater number of excellent players but also a wider variety. With an exception or two, most of our basketball players are veterans, having started with the 5th and 6th grade teams. We have young experienced players coming up the line that will keep us on the top for years to come.

1. Prophecy Fulfilled. 2. Don't tell me Kurt's stuck again! 3. Tom won't let him have it! 4. Now do as I do! 5. Sheree Scores Again! 6. Jimmy, you've grown. 7. Wonder Woman!

Girls Varsity Rallies To Victory.

4.

With the help of coach Carolyn Steenhoek and captains Sheree Kasch and Linda Menees, the girls varsity basketball team started the season off by defeating University by a score of 51-18. Their teamwork proved to be a definite asset. With the return of Sally Smith, who last year made an outstanding performance as an eighth grader in the state tournament, the team in years to come looks to be a promising one.

1. All eyes up. 2. Our seniors. 3. S-t-r-e-t-c-h. 4. Linda makes it look easy. 5. Dawn Tyson scores in the 1977 state tournament. 6. **Bottom Row, L to R:** S. Smith, S. Danziger, D. Allan, R. Our girls J.V. basketball team started the year with success and continued to chalk up victories for the team. The girls played very well with the help of coach Gary Steenhoek, who led them to many victories. A young, but never the less talented team, proved to have great potential in the future.

Who-o-osh . . . Two Points!

The 5th and 6th grade Basketball Team finished undefeated last year and the players carried their talent on to the Jr. High team. Headed by Coach Boyett, the elementary team had togetherness and teamwork, a combination which is vital. They showed great potential, both for this year and the Jr. High team next year.

Go-Fight-Win! That was what the air was like around the 7th and 8th grade basketball team. They went onto the court to fight and most importantly win. Coached by Bruce Bromley, they did their mighty Lion best. We can look forward to exciting and eventful years in our elementary and Jr. High teams.

Cheerleaders Create Spirit

Hard work and loyalty to their team put together the 7th and 8th grade cheerleaders. Their great zest and exuberance rubbed off on the crowds. Likewise the 5th and 6th grade cheerleaders put a lot of time and effort into their cheering. They practiced and practiced until their cheering was at its best.

1. Jr. High Cheerleaders — **L to R, Bottom:** L. Dismuke, J. McCari, S. Stephens. **Middle:** K. Eldridge, C. Sorenson, B. Tucker, L. Strittmatter. **Top:** E. McGrew, S. Danziger, L. Priebe. 2. Competitors Strike Out

The 1977 baseball team came into victory with a big hit. Like last year they won many victories with the help of Coach Chubb. Again they had the help of Coach Heiber. Each baseball team member had to work hard but it paid off, as they brought home victories and drew large crowds at the home games.

1. 1977 Varsity Baseball Team — **L to R:** J. Dismuke, Coach Hieber, C. Clark, B. Watson, K. Smith, B. Thompson, R. Roccanti, B. Hosbrook, B. Harper, K. Lunsford, E. Hurter, L. Stephens, F. "Higher, and "stretch," were some of the sounds the track team heard from Coach Key. Like last year they continued to win many meets. With the help of Coach Key they became very victorious. Each member worked hard on their own event, but for one common goal — to bring home another victory for the team.

Practice makes perfect, as the saying goes, especially in tennis. The boy's tennis team worked hard on their tennis skills, as always. Coach Thompson was in charge of this dedicated W.A. team.

The girls tennis team worked just as hard as the boys. They strived to do their best, with Coach Morris who directed them. On both tennis teams they kept their heads high and attitudes in perspective, ending with a successful year.

1. **L to R:** Coach Morris, N. McClellan, S. Danziger, K. Baker, T. Eldridge, K. Boals, S. Mertens, C. McNeil, K. Murphy, C. Alson, J. Kennedy, L. King. 2. Kevin is a real let-down. 3. Congratulations Lions!
Mrs. Jordan

WHAT DOES THE
FUTURE HOLD FOR YOU?

Dreams become realities when people stop to question . . . But never stop striving to become the best they can. Because of the training we give today, our students can look to the future with optimism and envision tomorrows world as a stepping stone to even greater achievements. Let us show you how you can take that first step towards a better tomorrow.

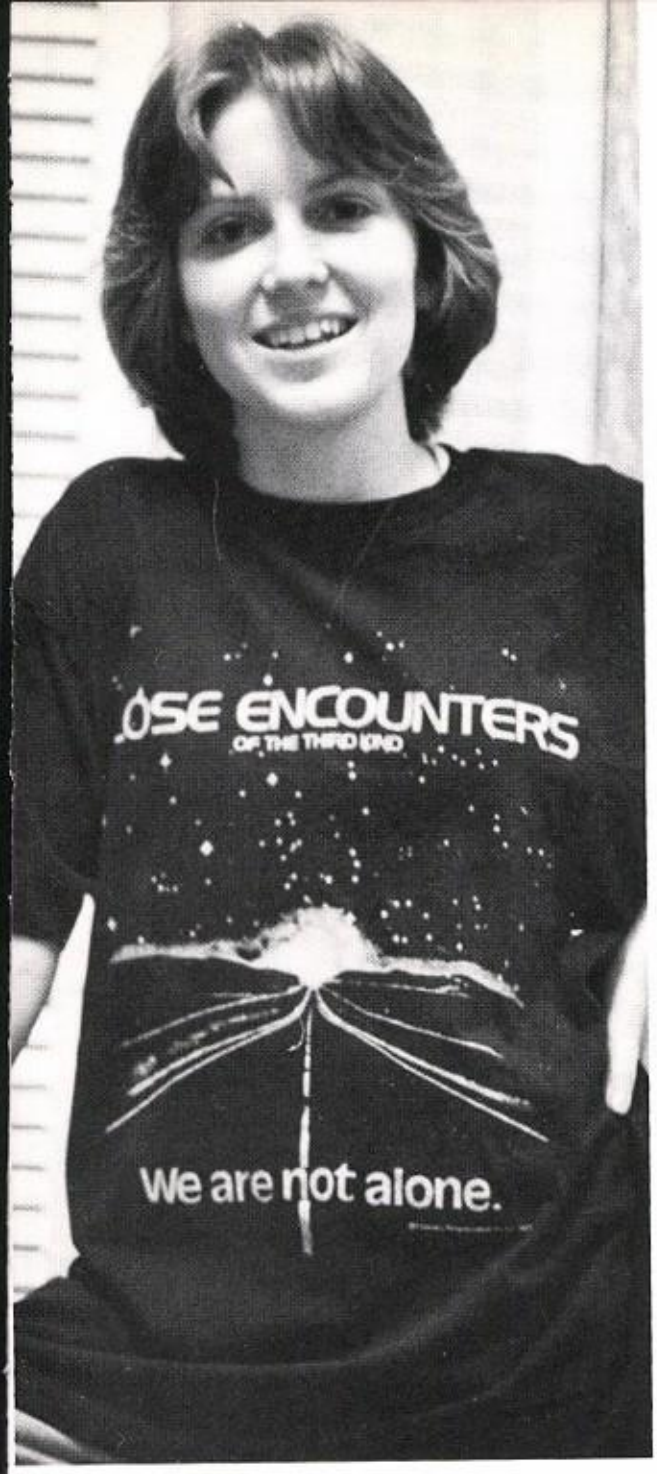
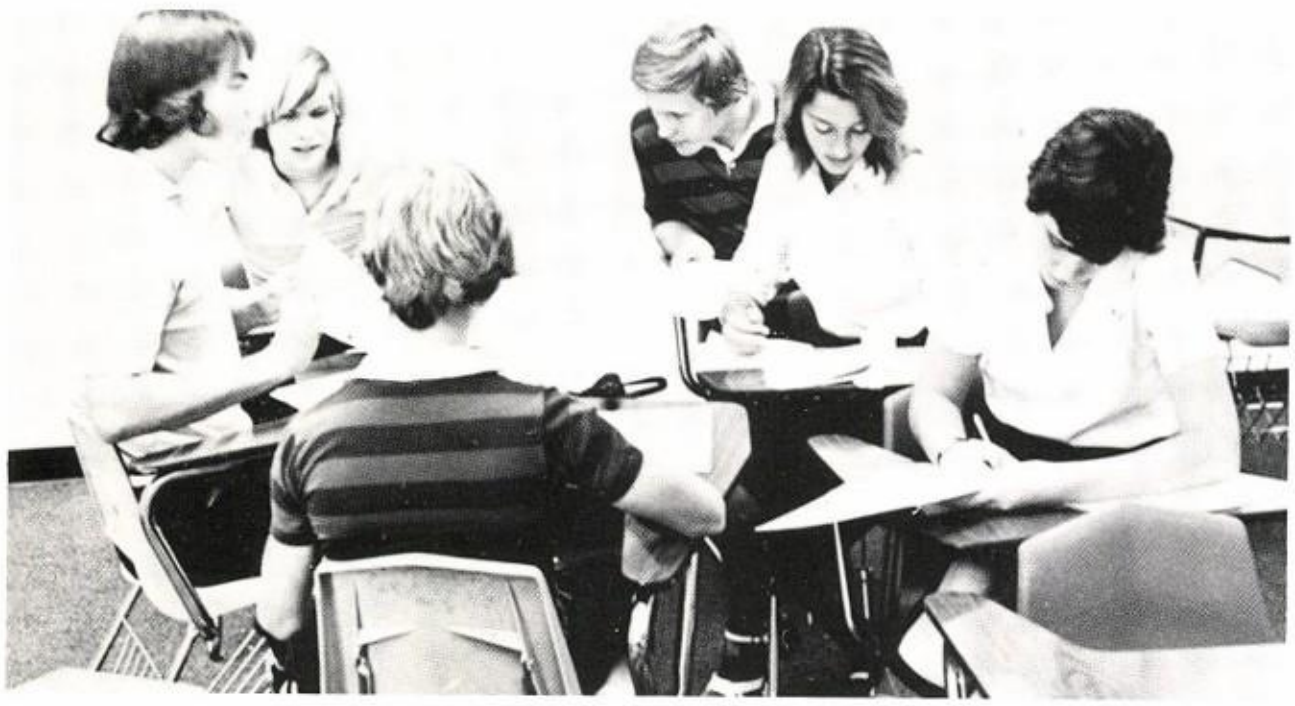
Final Frontier

The God who gives names to the stars in the universe is also infinitely aware of us. He gives us different talents, abilities, and interests. Some of us played football this year, some were on the Fall and Winter Homecoming Court, some went on a choir tour, and some helped a small child learn to read.

A star shines and gives light. God has called many of us to Himself that we might shine for Him. We are to let this light given to us by God shine before men that they might see Christ in us.

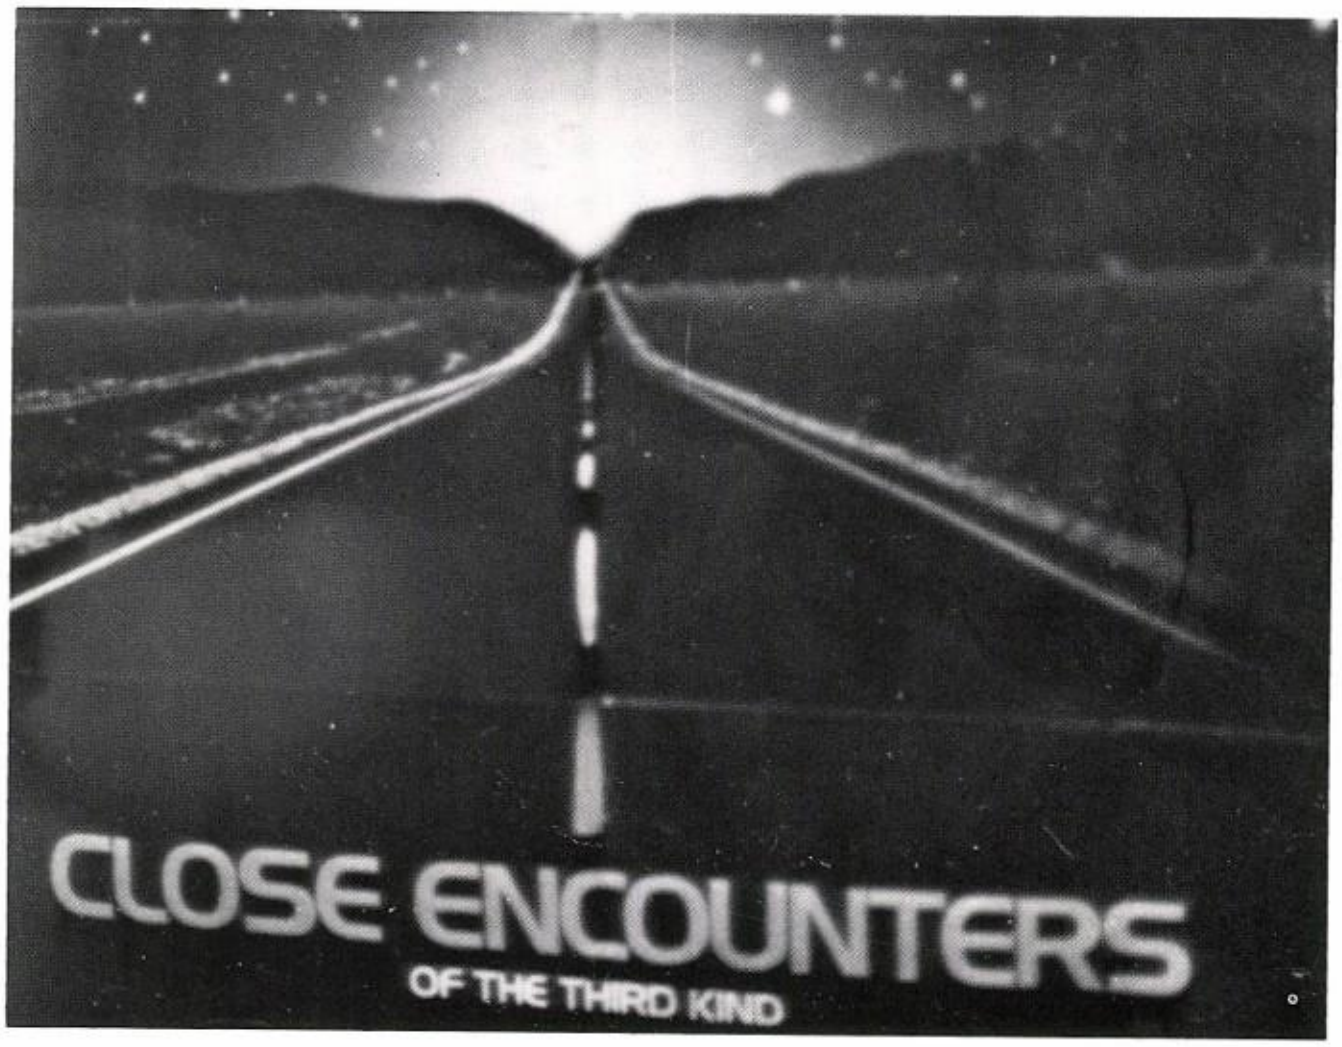


He counts the number of the stars: He gives names to all of them. *Ps. 147:4*



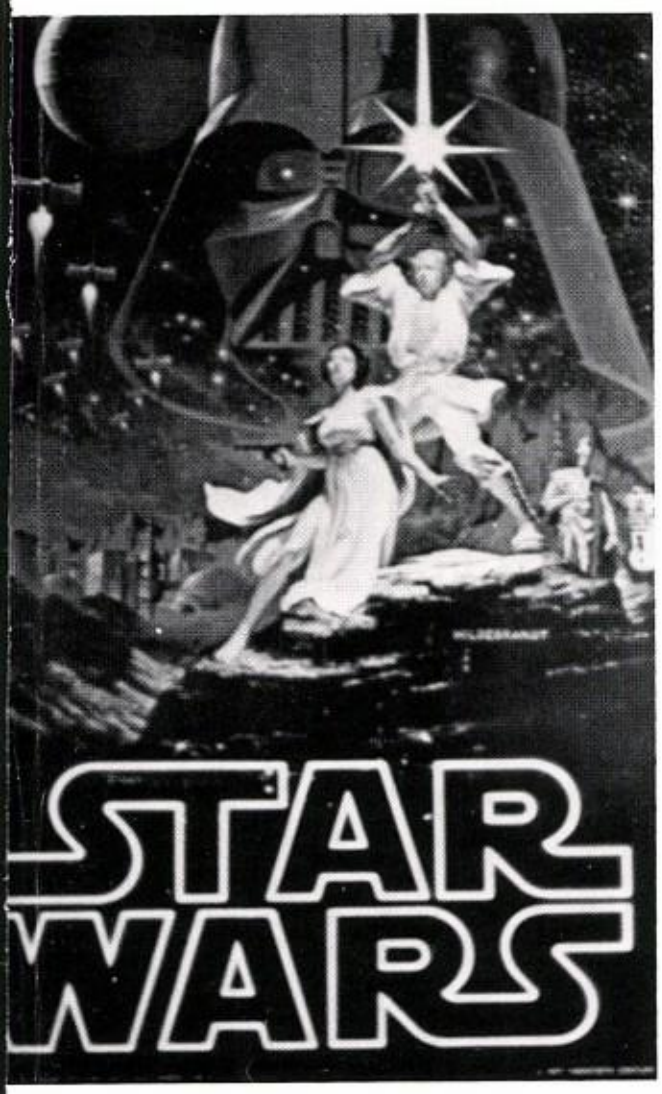
Different stars shine with different intensity at night, and yet they are each unique with their special place. Some stars, because of the way they relate together are given special names: The Big Dipper, The Bear, and Orion's Belt.

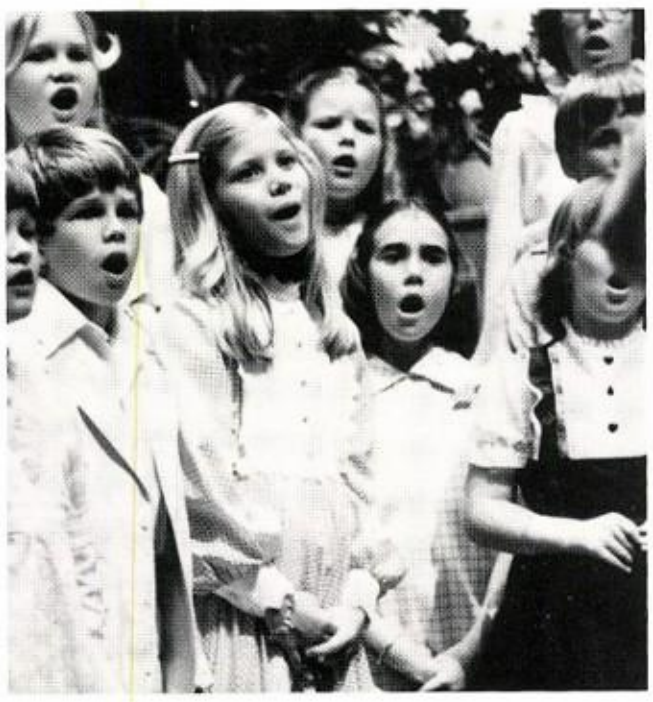
There are those of us who have been drawn together. We have come together and have learned what it means to understand and feel for a friend. The group was special because we shared in each other's life. We have learned what it means to belong to a team, a club, an organization. In belonging, we have grown.



God placed them in the expanse of the heavens to give light on the earth.

Gen. 1:17

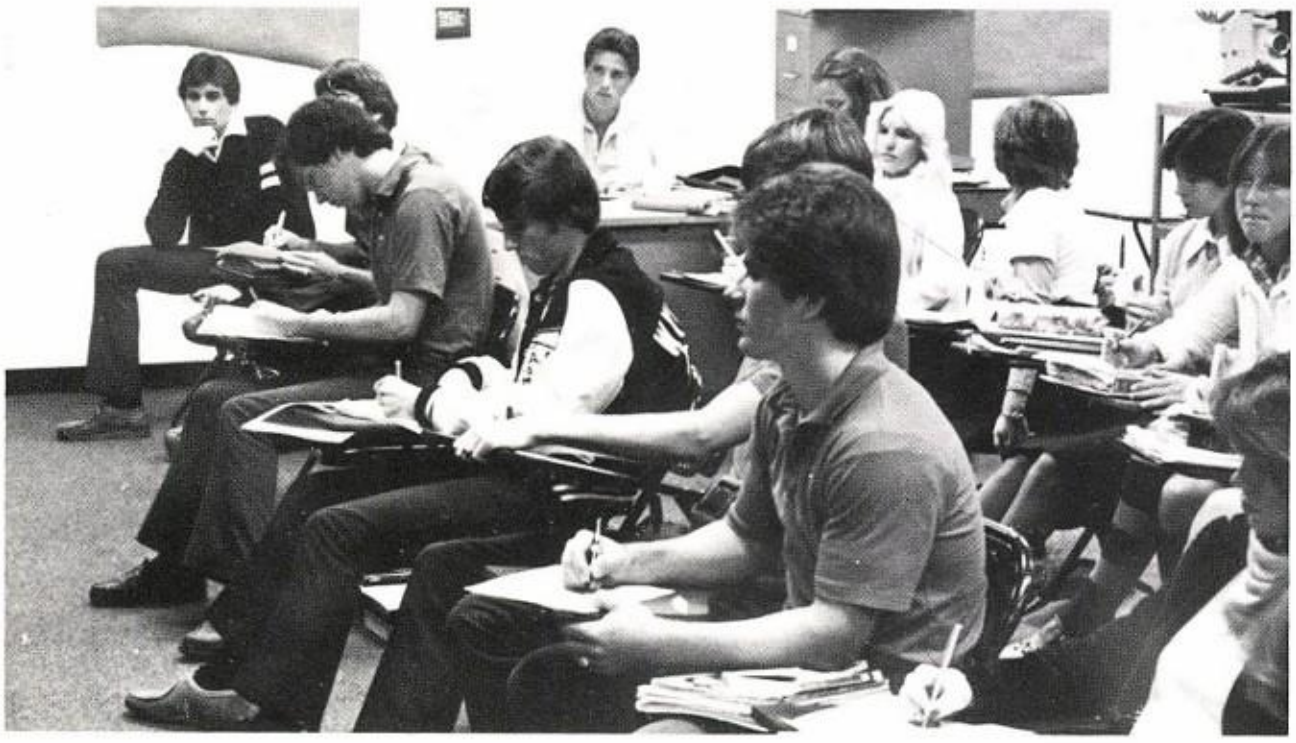


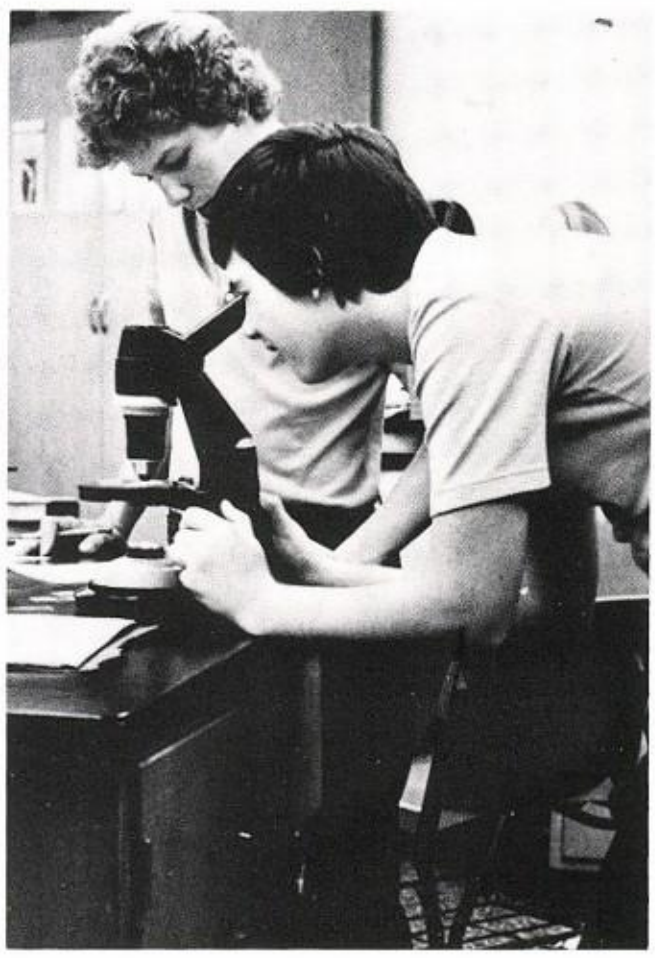


We have seen the Star and have come to worship Him.

paraphrase of Matt. 2:10, 11

Yes, 1978 was a year of encounters. We met and came into contact with many people who enriched our lives. But, some of us had a different type of encounter. We encountered Someone whose love exploded within us and we were changed. As a result of this meeting, we became different people for no one can encounter Jesus Christ and remain the same.





judy:
You a really sweet girl.
